

# PowerWatch

[www.powerwatchindia.com](http://www.powerwatchindia.com)

**INDIA**

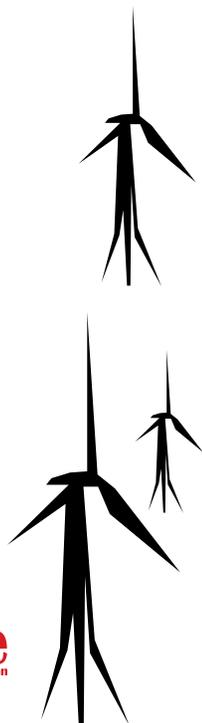

**MEDIA KIT ►**

Next Gen Publishing Ltd - promoted by the Shapoorji Pallonji group and HDFC - has completed 11 years successfully in the field of Special Interest Publishing.

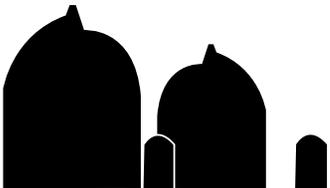

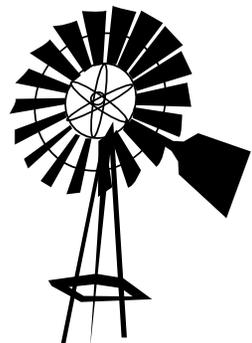

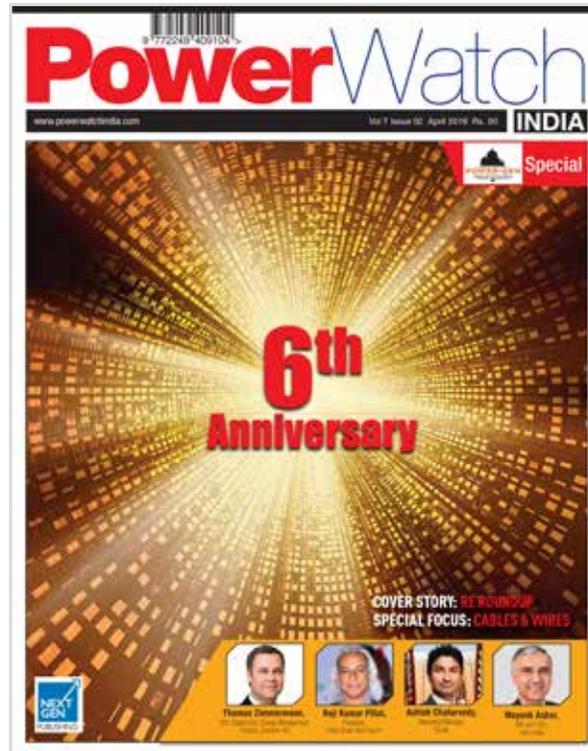

In view of the vast potential for growth in the power sector, we had launched **PowerWatch** India in 2010. The magazine has been presenting since over 6 years, a monthly industry overview exploring many important issues facing the power industry. Its a perfect print platform for Marketers interested in reaching professionals in the power generation, transmission & distribution segments, covering both the conventional & renewable energy spheres.

Next Gen Publishing Ltd - the publisher of PowerWatch India Magazine is a trusted brand that spans across the print, digital & event media space & churns out an interesting mix of Special Interest B2C & B2B titles such as Commercial Vehicle, Car India, Bike India, Smart Photography, The Ideal Home & Garden, Mother & Baby, T-3 & Auto Components India.

# Why PowerWatch India?

We asked ourselves at Next Gen. The answer seemed to lie in an interesting mix of factors. While there are indeed an umpteen number of publications targeted at this rather niche space, we realized there wasn't any that positioned itself as much as an industry player as it was a commentator on sector developments. The power sector is a dynamic one. It needs a magazine it feels one with. A magazine that is as much a launch pad for a new project, product or service, as it is a podium where issues confronting the sector may be addressed by the sector's own professionals. A magazine that sheds the comforting cocoon of pureblood business publications. This is what PowerWatch India aims to do – to catalyze change in the power industry.

# Editorial Advisory Board

## **HOSHANG S BILLIMORIA**

HOSHANG S BILLIMORIA is the CEO of Next Gen Publishing Ltd., a Forbes Group and HDFC venture.

A Chartered Accountant trained in the UK, Hoshang started his career in India with S. B. Billimoria & Company, Chartered Accountants, and was a partner in the firm for 10 years. He moved to Tata Sons as Deputy CEO and then to Tata Press, where he became Vice-Chairman and MD. With him at the helm, Tata Press saw 14 successive years of increasing profits. Tata Press Yellow Pages was his brainchild as were other special interest magazines.

Hoshang is an Independent Director on the board of companies like Thomas Cook India, HDFC Asset Management Company, Gokak Textiles, Fenner Conveyor Belting Ltd. etc.

## **ADI J ENGINEER**

ADI J ENGINEER, best known for his successful stint as Managing Director of Tata Power, Chairman of NDPL.

As MD of Tata Power, he took the company pan-India. He was the chief architect of the first public-private partnership in power transmission between POWERGRID and Tata Power, for the 1,200-km transmission line from Tala, Bhutan. He has also been closely associated with Tata Power's 4,000 MW Mundra UMPP. As Chairman, NDPL, he has turned the company around, reducing AT&C losses from almost 53% to 15% in just seven years.

Adi has a degree in civil engineering from Pune University. He is Ex-Chairman of CII's Committee on Power, he is also Director on the boards of Tata BP Solar, Tata Projects, Tata Power and Finolex Cables.

## **P V KRISHNA**

P V Krishna started out with NELCO in 1975, he eventually moved to Warstilla as a company's spokesperson on decentralized power generation. There, he participated and presented papers in various national/international conferences on the subject. Before joining Warstilla, he spent his considerable time with Jyoti Ltd and worked in various capacities, handling a range of electrical products – switchgear, rotating machines, power electronics etc. He has also served as Director General with IEEMA from mid 2010 to mid 2012. Currently, he is working as an independent consultant in power and energy sectors.

## **C A COLACO**

A 45 year long veteran in power engineering, C A COLACO has been Advisor on power sector issues to consumer interest groups and industries eg TBIA, Reliance and Tata Power. An Electrical Engineer from Mumbai University, and a member of the Institution of Engineering and Technology (earlier IEE), UK, he trained with Mather & Platt and GEC-AEI (now Alstom), UK.

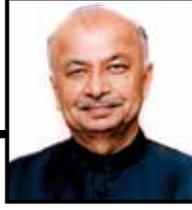

A design, construction, commissioning and O&M specialist, he has in recent years worked on regulatory and legal aspects of the business, especially on reform and restructuring of India's power sector. Mr Colaco is a regular contributor to various publications in the business media

## **J D KULKARNI**

J D Kulkarni has over 39 years of multifaceted experience in the field of Power Generation, Transmission, Distribution and Trading.

A post graduate from IIT, Mumbai in Electrical Engineering, his 37 years long stint with Tata Power, where he held varied pivotal portfolios / positions. He has headed Mumbai power distribution business & established regulatory department for the company after promulgation of EA 2003. His last stint with Tata Power was as Chief Operating Officer for Tata Power Trading Co, responsible for growth and expansion in different areas of trading including power, coal and renewable energy. As Editor of "PowerWatch India Magazine" (2014-16) he managed to enrich the magazine's "content" with his indepth knowledge on the sector. Is currently Advisor to D B Power, besides being on PowerWatch India's Editorial Advisory Board.

### MESSAGE

It is pleasing to learn that Next Gen Publishing Limited, Mumbai proposes to launch its inaugural issue of PowerWatch India magazine next month.

For holistic infrastructural and social development, the Power Sector is gearing up today to deliver quality power to all, at an affordable rate. The availability of the latest information with the advent of more literature in the form of sector specific magazine would certainly highlight issues relating to power generation, transmission & distribution segment, policies, regulations, involvement of public private partnership for faster growth of sector and sustainable sources of energy alternatives.

I wish the launch of the magazine all success.

  
(SUSHILKUMAR SHINDE)
